Mission and development projects 2020

Development projects

For non-TC members, a surcharge of 30% will be added.

Area	Daily costs (CHF)
<i>(1) During weekends (from Friday 7pm until Monday 7am Swiss Time), an additional fee of +25% will be invoiced for on-call between 7am and 7pm, and +50% for on-call between 7pm and 7am.</i>	
Developer / tester / technical writing	730.00
External developer / tester / technical writing	1'150.00
Project management / on call support ⁽¹⁾	850.00

Mission

For non-TC members, a surcharge of 30% will be added.

Activity	GNI	Consulting price in CHF per pd	Special consulting price in CHF per pd for RDP projects
All mission types	1 or 2	760.00	760.00
Survey, implementation and extensions (new functionality)	3	600.00	500.00
	4	500.00	450.00
Follow up missions (technical and operational training, migrations)	3 or 4	450.00	450.00

- Mission calculation will be based on the GNI class of the country ([World Bank classification](#))
- Standard IPS site surveys are calculated with 12 person days (pd) - 5 days onsite
- Standard IPS implementation mission are calculated with 20 pd - 10 days onsite
- Standard CDS implementation mission are calculated with 8 pd - 5 days onsite
- Standard STEFI implementation are calculated with 14 pd - 4 days onsite
- Follow up missions have to be calculated based on the preparation, workload onsite and follow up of the mission based on daily rates
- DSA and travel costs will be charged in addition
- DSA daily subsistence allowance is based on icsc.un.org
- Trainings in Berne, including preparation, will be charged per consulting day shared by members of operators attending
- RDP projects and methodologies are available under www.upu.int

Financial services 2020

Fees (CHF): IFS - IFS on shared cloud - STEFI

For non-TC members, a surcharge of 30% will be added.

IFS, IFS on shared cloud, STEFI (or UPU-IP connector)

(1) Gross national income group (as per [World Bank classification](#)). Territories in the GNI class 1, will be classified in the GNI class 2.

(2) The IFS Domestic module is only available with the IFS and IFS on shared cloud softwares.

GNI group (1)	Year 1 to year 5	Number of years in production with IFS, IFS on shared cloud or STEFI (or UPU-IP connector)					Using IFS Domestic Module (2)
		From year 6					
		Using International only, with volume of (inbound + outbound) transactions the year before					
		< 1'000 (75% discount)	1'000 < ... < 10'000 (60% discount)	10'000 < ... < 30'000 (20% discount)	≥30'000 (no discount)		
GNI 1	2'500.00	7'000.00	11'200.00	22'400.00	28'000.00	28'000.00	
GNI 2	2'500.00	4'500.00	7'200.00	14'400.00	18'000.00	18'000.00	
GNI 3	2'500.00	3'000.00	4'800.00	9'600.00	12'000.00	12'000.00	
GNI 4	2'500.00	2'500.00	2'500.00	2'500.00	2'500.00	2'500.00	

Add on products (annual fees)

	Non TC member	TC member
QCS Finance	1'950.00	Free
Eurogiro interconnection	Free	
PPS*Clearing	Free	
IFS mobile	Free	
CMS - Cash Management System	2'000.00	
Virtual Private Network (tunneling) link	for IFS or STEFI 2'400.00	
Active directory additional user (> 5)	100.00	
Public API (per external server with certificate)	100.00	

IFS Domestic (annual fees) - for IFS

(1) The validity of a package is a calendar year. The combination of packages is in the responsibility of the designated operator.

Volume package for processed domestic (national) postal payment

Range (number of postal payment)			Equivalent charge per postal payment if package is used in full
Volume (postal payment)	Price (CHF)		

IFS Domestic (annual fees) - for IFS			
Minimum package (1)	10'000.00	1'000.00	0.10
Package 1 (1)	10'000.00	1'000.00	0.10
Package 2 (1)	25'000.00	2'200.00	0.088
Package 3 (1)	50'000.00	4'000.00	0.08
Package 4 (1)	100'000.00	7'500.00	0.075

Cloud services

UPU software solutions can be installed locally, or be provided as Software as a Service (SaaS) through the UPU-operated Cloud platform. Prices for Cloud services vary with each desired configuration and in particular with requirements for hardware, number of concurrent users, and options for full business continuity plans. Each Cloud offer is therefore tailor-made for the requesting post: please contact the PTC for further details.

Fees (CHF): POST*Net Finance

For non-TC members, a surcharge of 30% will be added.

POST*Net Finance		
EDI mailbox setup fee (for all mailboxes) (One off charge)		2'450.00
Annual fees		
Range (number of outgoing international postal payment)		
From	To	Charge per postal payment
0	5'000	0.4000
5'001	10'000	0.2000
10'001	50'000	0.1000
50'001	100'000	0.0400
100'001	500'000	0.0200
500'001	1'000'000	0.0100
1'000'001	2'000'000	0.0030
2'000'001	no limit	0.000

Billing (invoicing)

Rules for billing and decisions concerning IFS deployment

Once the software application has been installed, the designated operator is required to pay the annual fee, which covers software maintenance and updating costs. An annual fee is also charged for use of the POST*Net network (the amounts billed to users are based on their message volumes).

The date of the on-site installation of the software application is not necessarily the date on which the application becomes operational (production launch date). The annual fee covers the period starting from the first day of the month following installation of the application (fees based on standard annual fee).

Annual fees for applications and services

Charges for applications are payable annually, within 30 days of the bill. Bills are sent out each January. They correspond to the amounts due for the current year. The annual fees include the cost of automatically dispatching new versions of software offered by the PTC.

Communication charges based on volume

POST*Net Finance communication charges are billed at least once every three months.

Payment of bills

All bills issued by the PTC must be paid within 30 days of their receipt.

Important: procedure for unpaid bills

A debt in arrears shall include any unpaid amount relating to membership fees, members' contributions to funding, fees charged on the basis of the «Schedule of Charges» and licensing fees which have not been paid within 90 days of the billing date. After that period, interest shall be charged for all debts in arrears. The sum due shall be chargeable with an interest in favor of the budget of the Postal Technology Centre at the rate of 5 per cent per year.

VAT (or other surcharges)

All fees do not include VAT and/or any other surcharges paid by the Licensee in accordance with its national legislation.

Mail and customs services 2020

Fees (CHF): IPS - PNG - PIMS - IPS.POST

For non-TC members (Designated operators), a surcharge of 30% will be added.

IPS and PIMS	IPS (PNG included)	PIMS
--------------	--------------------	------

(1) Gross national income group (as per [World Bank classification](#)). Territories in the GNI class 1, will be classified in the GNI class 2.

(2) Members of the TC in GNI class 1 with less than 50'000 items/year will be classified for IPS usage in GNI class 2.

GNI group (1)	Per national server	
1 - High income (2)	36'000.00	2'000.00
2 - Upper middle income	21'500.00	1'000.00
3 - Lower middle income	16'000.00	500.00
4 - Low income and LDC's	7'500.00	0.00

IPS.POST

For maximum 6'000 outbound items/mailclass and 20 users	2'300.00
Additional users (>20 users), per new user	200.00
Additional outbound items/mailclass (>6000), per item	0.10

Add on products

	Non TC member	TC member
QCS mail	1'950.00	Free
GTT (Global Track and Trace)	Free	
VPN tunnel	For IPS or PNG	2'400.00
Additional servers linked to national server	For IPS	2'000.00
IPS Web Client per server	For IPS	3'500.00
IPS Web tracking	For IPS	1'000.00
Portable scanner	For IPS	3'000.00
Public API (per external server with certificate)	100.00	

Fees (CHF): CDS

For non-TC members (Designated operators), a surcharge of 30% will be added.

For all users with their EDI mailbox for Customs messages (xx501) on networks other the POST*Net the Annual CDS fee is equal to the volume fee cap (=maximum volume fee). Draft declarations will not be charged.

The CDS pricing is divided in three options.

Option 1

Full usage of the application.

Annual volume fee for CDS users on POST*Net

Volume fee per declaration (S10 barcode) sent/received incl. transport on POST*Net for all messages (ITMATT, CUSTIM, CUSRSP)

GNI group	Capped yearly fee	For IPS and non-IPS users	
		Fee per declaration (in/out)	Equivalent number of declaration when reaching the cap
1 - High income	28'000.00	0.04	700'000
2 - Upper middle income	18'000.00	0.04	450'000
3 - Lower middle income	7'000.00	0.04	175'000
4 - Low income and LDC's	3'000.00	0.04	75'000

Option 2

"CDS as EDI generator" can be provided with CDS.POST, CDS local, and CDS Cloud.

Annual volume fee for CDS users on POST*Net

Volume fee per declaration (S10 barcode) sent/received incl. transport on POST*Net for all messages (ITMATT, CUSTIM, CUSRSP)

GNI group	Capped yearly fee	For IPS and non-IPS users	
		Fee per declaration (in/out)	Equivalent number of declaration when reaching the cap
1 - High income	28'000.00	0.03	933'334
2 - Upper middle income	18'000.00	0.03	600'000
3 - Lower middle income	7'000.00	0.03	233'334
4 - Low income and LDC's	3'000.00	0.03	100'000

Option 3

Access to CDS APIs only.

Product/Service	Unit cost	Financial Cap (yearly)	Technical limits
<i>(1) Client means: access point for calling the UPU API (can be at the DO itself or its partners, ex: large mailers)</i>			
eCommerce API for: - HS Lookup - Prohibitions and restrictions - Correctness of postal addresses	0.01 CHF/click if subscribing to one service 0.02 CHF/click if subscribing to two or three services 100 CHF/client ⁽¹⁾ for X.509 Certificate to access the API	None	None (service is only available through the PTC Cloud)

CDS.POST

The following principles are proposed:

- Volume: use the financial cap of GNI 1 countries as the corresponding technical limit imposing the switch to either CDS Local or CDS Cloud, for all GNI classes. For example, with the current fees that limit would be 466,666 declarations/y (if the user is also running IPS, or 450,000/y otherwise)
- Number of users: similar to IPS.post, charge a fee for additional users above 20

EAD Mobile Application

There is no "purchase" (one-time) costs for the App.

CHF500.00 per year will be charged to the Posts for covering 3rd level support activities and the distribution on the Google Play Store.

Note: Posts are in charge of the user and technical support of the users of the App.

Cloud services

UPU software solutions can be installed locally, or be provided as Software as a Service (SaaS) through the UPU-operated Cloud platform. Prices for Cloud services vary with each desired configuration and in particular with requirements for hardware, number of concurrent users, and options for full business continuity plans. Each Cloud offer is therefore tailor-made for the requesting post: please contact the PTC for further details.

The users will be divided in three groups (grades). The table below shows the hosting fees for IPS Web Tracking on the PTC Cloud Infrastructure. These fees come in addition to the IPS Web Tracking "add-on" yearly product fees (see above):

IPS Web Tracking			
	Events per Year		IPS Web Tracking on Cloud installations (CHF per year)
	Mail item	Accounting dispatches	
Grade 1	0 < 1'000'000	0 < 100'000	800.00
Grade 2	1'000'000 < 10'000'000	100'000 < 700'000	1'600.00
Grade 3	> 10'000'000	> 700'000	3'200.00

Fees (CHF): POST*Net mail

For non-TC members (Designated operators), a surcharge of 30% will be added.

For Wider Postal Sector Players (WPSP), a surcharge of 10% will be added.

POST*Net mail

(1) Users will be billed for the volume of EDI message transmissions exceeding the minimum annual price of CHF500.00.

Usage of POST*Net network without PNG		5'000.00
EDI mailbox setup fee (for all mailboxes) (One off charge)		2'450.00
Annual fees		Per kilo-byte (kB)
Billing of EDI messages in EDI FACT format (annual)		0.027
Billing of EDI messages in XML format (ITMATT, CUSITM, and CUSRSP) (xx501 mailboxes). The price of XML messages for CDS users is included in the CDS price.		
XML message size in kB	kB billed on POST*Net (Non-CDS users)	0.027

POST*Net mail		
<= 10	1	
10 < x <= 40	2	
40 < x <= 100	8% of the XML message length	
100 < x <= 200	7% of the XML message length	
> 200	6% of the XML message length	
Minimum annual fees (less than 31'000 kB per year, or 2'583 kB per month) (1)		500.00
Maximum annual fees (over 3'100'000 kBe per year, or 259'000 kB per month)		84'000.00 (CHF7'000 per month)
Post*Net Mail Added Value Services (PNAVS) - Cargo messages converter - ICS2 converter		Included in the POST*Net mail fees, no additional charges

Billing (invoicing)

Rules for billing and decisions concerning IPS deployment

Once the software application has been installed, the designated operator is required to pay the annual fee, which covers software maintenance and updating costs. An annual fee is also charged for use of the POST*Net network (the amounts billed to users are based on their message volumes).

The date of the on-site installation of the software application is not necessarily the date on which the application becomes operational (production launch date). The annual fee covers the period starting from the first day of the month following installation of the application (fees based on standard annual fee).

Annual fees for applications and services

Charges for applications are payable annually, within 30 days of the bill. Bills are sent out each January. They correspond to the amounts due for the current year. The annual fees include the cost of automatically dispatching new versions of software offered by the PTC.

Communication charges based on volume

POST*Net Mail communication charges are billed at least once every three months.

Payment of bills

All bills issued by the PTC must be paid within 30 days of their receipt.

Important: procedure for unpaid bills

A debt in arrears shall include any unpaid amount relating to membership fees, members' contributions to funding, fees charged on the basis of the «Schedule of Charges» and licensing fees which have not been paid within 90 days of the billing date. After that period, interest shall be charged for all debts in arrears. The sum due shall be chargeable with an interest in favor of the budget of the Postal Technology Centre at the rate of 5 per cent per year.

VAT (or other surcharges)

All fees do not include VAT and/or any other surcharges paid by the Licensee in accordance with its national legislation.

Wider Postal Sector Players (WPSP)

In April 2019, the POC has endorsed, and the CA has approved, the principles for pricing the access to some of the UPU IT Products and Services to two key Wider Postal Sector Players (WPSP): namely Airlines (and by extension ground handlers) and Customs organizations. These WPSP are active in critical segments of the postal supply chain: transport and security/export and import clearance.

The annex 3 of document CA C2 2017.2-Doc 2 clearly identifies the following IT solutions:

- Post*Net Mail, PNG and QCS Mail including production dashboards
- Supply Chain Integration System (SCIS)
- Public APIs
