

List of data sets and database volume 2024.1

Data level:  
A++ = address directory  
A+ = street directory  
A = postcodes for localities and streets  
B+ = postcodes for localities and districts  
B = postcodes for localities  
C = names of localities only

SORTING BY REGION AND COUNTRY/TERRITORY NAME

Data volume:  
approx 26 GB  
(specific countries not included)

Data set code ("ISO-3 CODE")	Data set identifier XY	Country/territory name	Geographical region	Data level	Last updated	Supplement to data level	Number of records per data set in the final database on 29 Feb 2024					Script used in the synonym file AAA_XY5		Encoding used in the ISO 8859 folder (UTF-8 if not available)	Data sets with specific conditions on 29 Feb 2024	Download the sample from www.upu.int or ask for your sample CD
