Additional comments from member countries

Australia

Under Australia's ETOE policy, Australia Post will accept items originating from ETOEs (or any other commercial entity holding an international mail processing centre code) dispatched to it on UPU documentation for processing and delivery, solely by means of its direct access service and in accordance with the terms and conditions governing that service. Among other things, an agreement must be established with Australia Post for access rights, wherein the parties acknowledge the terms and conditions that apply to the service, and recognize that penalties may be imposed should items not conform. In the absence of such a direct access agreement with Australia Post, Australia reserves the right to return incompliant items originating from ETOEs and to impose on the designated operator of origin a charge not less than the costs incurred by Australia Post in the handling of these items.

Australia's ETOE policy also applies to:

- a items originating from an ETOE but routed through an office of exchange prior to reaching Australia (rerouted ETOE items); and
- b items originating from an ETOE and dispatched to Australia in receptacles also containing items subject to the UPU Acts (collectively, mixed items).

Under Australia's ETOE policy, in the absence of a direct access agreement with Australia Post:

- a in the case of rerouted ETOE items, Australia reserves the right to return all such items and to impose on the designated operator of origin a charge not less than the costs incurred by Australia Post in the handling of these items; and
- b in the case of mixed items, Australia reserves the right to return all such items and to impose on the designated operator of origin a charge not less than the costs incurred by Australia Post in the handling of these items. This is notwithstanding the fact that mixed items may also comprise some items that are subject to the UPU Acts.

Belgium

Point 1.3 – Applicable conditions

In this case, a licence application is submitted to the Belgian Institute of Posts and Telecommunication (IBPT) if, and only if, deliveries of inward dispatches within the framework of the universal service are also made on Belgian territory.

ETOEes and their subcontractors must comply with the basic requirements set out in article 148bis of the Law of 21 March 1991 concerning the reform of certain public economic enterprises. These include respecting the confidentiality of correspondence, observing network security for the transport of dangerous goods, respecting the relevant legal and administrative provisions concerning working conditions and social security requirements and/or collective bargaining agreements negotiated between social partners in accordance with Community law and national legislation and, in justified cases, respecting the provisions concerning the data protection, protection of the environment and regional development. Data protection provisions may apply to personal data, the confidentiality of data transmitted or stored, as well as the protection of privacy.

Belgium's designated operator, bpost, accepts inbound items from ETOEs. UPU documentation (i.e. CN 38 delivery bill), customs procedures (i.e. CN 22 customs declaration) and the terminal dues system are applicable, subject to a reciprocity agreement between the member country of the designated operator managing or connected with the ETOE and to a prior bilateral agreement between that operator and bpost.

Without prejudice to article 14, paragraph 2.2 of the Law of 17 January 2003 relating to the status of the posts and telecommunications sector regulator authorizing the IBPT to require, subject to a reasoned request in writing, any relevant information from any concerned person, a copy of the bilateral agreement between the designated operator managing or connected with the ETOE shall be transmitted on a voluntary basis by bpost to the IBPT.

Requests to the UPU for IMPC codes shall be submitted through the IBPT.

Point 2.3 – Applicable conditions

bpost accepts inbound items from ETOEs. UPU documentation (i.e. CN 38 delivery bill), customs procedures (i.e. CN 22 customs declaration) and the terminal dues system are applicable, subject to a reciprocity agreement between the member country of the designated operator managing or connected with the ETOE and to a prior bilateral agreement between that operator and bpost.

Without prejudice to article 14, paragraph 2.2 of the Law of 17 January 2003 relating to the status of the posts and telecommunications sector regulator authorizing the IBPT to require, subject to a reasoned request in writing, any relevant information from any concerned person, a copy of the bilateral agreement between the designated operator managing or connected with the ETOE shall be transmitted on a voluntary basis by bpost to the IBPT.

Requests to the UPU for IMPC codes shall be submitted through the IBPT.

Finland

Generally, mail exchanges in accordance with the UPU Acts are based on reciprocity. This does not exist for ETOE mail, and there may be no discrimination against other operators or third parties.

1 Postage and dispatch logos

All logos must show which postal operator runs the ETOE, as well as its name and location. This information is needed to determine who pays the terminal dues, and to deal with possible returns.

2 Terminal dues

The designated operator of Finland will charge the same terminal dues it would have charged if the mail had been sent by the designated operator (public postal operator) of the country in which the ETOE is located.

Terminal dues for mail from all "old" EU countries will be determined in accordance with the REIMS Agreement, and those for mail from the "new accession" EU countries in accordance with REIMS East – where the latter exists. Otherwise, REIMS will also be used for the "new accession" countries.

3 Returns

The designated operator of Finland does not make ETOE dispatches. In order to serve customers (i.e. senders), mail should be returned to the country where the sender resides. The free return of mail is based on reciprocity, which in this case does not exist. Therefore, the designated operator of Finland will charge normal tariffs for returned mail.

4 Dispatches, format separation and dispatch lists

The traffic composition, frequency and other variables will, in all probability, differ from the “normal” traffic from the country in which the ETOE is located and from that of the designated operator operating the ETOE.

Consequently, for ETOE mail, the designated operator of Finland cannot use fixed IPKs or statistics and sampled IPKs that apply to other traffic flows. For the above reasons, it is neither feasible nor cost-effective to carry out sampling on ETOE mail to the required extent.

Therefore, mail from ETOEs to Finland has to be formatted separately, into P, G and E formats (for checking purposes).

Each dispatch should have a dispatch list for each format type, including the number and weight of the items (most ETOE mail is from medium-sized and large customers, and is computer-generated and mainly from mailing houses).

5 Items posted abroad, i.e. ABA and ABC mail

Mail items from ETOEs to Finland have to originate from a sender in the country where the ETOE is located. If that is not the case, the designated operator will in all cases charge for ABA and ABC mail the terminal dues set out in corresponding article of the UPU Convention (this also concerns mail from all EU countries).

6 Quality of service link

Once a technical solution has been found for QS monitoring of ETOE mail, the designated operator of Finland requires that ETOE mail be part of the QS Link system.

ETOE mail from all EU countries has to fulfil the EU Postal Directive and the European Commission decision on third-party access. Therefore, ETOEs located in the European Union have to take part in the prevailing EU measurement scheme, which is currently UNEX (run by IPC).

For letters:

– Inbound:

- All dispatches, regardless of size, must be format-separated P, G and E.
- The number of items and total weights for each format must be communicated separately for each format and for each dispatch.
- The billing will be monthly.
- The owner of the ETOE has to guarantee the bills, otherwise the ETOE has to send a deposit or a bank guarantee.
- Each item must be clearly marked so that the sending ETOE can be detected (for liability and other legal reasons, also for customer service reasons).

- Returns are not free of charge, we do not make dispatches to ETOEs. There would have to be special arrangements.
 - No transit mail is accepted from ETOEs. It is not for us to check the ETOE policy of all possible final destinations.
 - The remail provisions in the UPU Acts apply (i.e. the sender of the mail shall reside in the country where the ETOE is situated. The sender cannot reside in any other country).
 - Terminal dues will be the same as those that would be paid by the DO of the country where the ETOE is situated.
- Outbound:
- The ETOEs need a permit from our ministry.
 - Each item from an ETOE in Finland has to be marked so the ETOE can be detected.
 - Returns to Itella for mail sent from Finland by an ETOE are not accepted free of charge, i.e. TD exempt.
 - Each return also must be marked to show which DO/ETOE is returning the mail.

For parcels and EMS:

These are not the same questions as they are always “individually” registered in the dispatches. For such items the markings also must show from which ETOE they originate. Further returns of items originating from ETOEs are not accepted free of charge. No transit mail is accepted from ETOEs. The remuneration and other rules are the same as if the items were sent by the DO in the country where the ETOE is situated.

Italy

“The establishing of postal businesses on Italian territory is subject to compliance with the relevant national legislation and regulations. At the request of the interested party, the Ministry of Communications grants the appropriate authorization and/or licence.

“Poste Italiane SpA will treat items it receives from ETOEs established inside or outside Italian territory in accordance with the terms, rates and conditions of acceptance applied to domestic postal products. In this respect, in compliance with the applicable Italian regulations, Poste Italiane SpA will enter into commercial agreements with ETOEs under non-discriminatory and transparent conditions.

“From 1 January 2006, items received from an ETOE that do not comply with the Italian regulations, and/or in the absence of an agreement with Poste Italiane SpA, will be returned to the ETOE. Poste Italiane SpA will be entitled to claim reimbursement of the redirection costs.”
