

Dear Sir/Madam,

In application of the provisions of article 33-101 of the Convention Regulations, I enclose the table of weighted average distances and corresponding rates per kilogramme for designated operators entitled to reimbursement of air conveyance dues within the country of destination, valid from 1 January 2020.

Calculation of the remuneration rates was based on the difference between the cost of air conveyance, limited by the basic air conveyance rate applicable, and the cost of surface conveyance. As indicated in circular No. 60 of 7 May 2018, the basic air conveyance rate for 2019 was 0.539 SDR/tonne-km.

Countries with a weighted average distance of less than 300 kilometres do not appear on the list and are not entitled to reimbursement of air conveyance dues.

However, where the terminal dues levied by the designated operator of destination are based specifically on costs, domestic rates or self-declared rates set under the new article 28bis of the Convention (which entered into force on 1 January 2020), no additional reimbursement for internal air conveyance shall be made.

This circular supersedes circular 179 of 4 November 2019.

Yours faithfully,

Abdel Ilah Bousseta
Director of Postal Operations
